WELT

## *Liebe Freunde von Jugend Eine Welt und Don Bosco*

Asien, insbesondere Indien, steht seit vielen Jahren im Fokus der Arbeit von Jugend Eine Welt.

Jungen Menschen eine Zukunft zu ermöglichen – durch Schule für Kinder, Ausbildung für junge Erwachsene, Arbeitsplätze für Eltern, Umweltschutz oder dem Kampf gegen Kinderarbeit – ist das Ziel der von Jugend Eine Welt geförderten Projekte.

Konkret sind es die Unterstützung von Straßenkinderprogrammen, die Ausstattung von Berufsausbildungszentren, die Förderung von Umweltinitiativen, die Stärkung der Kinderrechte oder die Qualifizierung von lokalen MitarbeiterInnen, welche wir durch finanzielle Unterstützung und der Vermittlung von Freiwilligen und Experten mit Ihrer Hilfe umsetzen.

Bewährter und langjähriger Partner in Asien sind die Salesianer Don Boscos mit ihren zahlreichen Projekten, Programmen und Initiativen. Eine Übersicht über die vielfältigen Angebote und Standorte unserer Partner gibt diese Broschüre des Don Bosco Network South Asia.

Bitte unterstützen auch Sie (weiterhin) die Arbeit von Jugend Eine Welt in Asien, damit ein Leben in Würde für mehr Menschen möglich wird. EINE Welt ist möglich!

In Verbundenheit,

Ihr  
Reinhard Heiserer

# Don Bosco in 134 countries - empowering global citizens since 1859

## DON BOSCO A FRIEND OF YOUTH

In India since 1906, Don Bosco institutions have been at the forefront of education and vocational training for children and youth, especially those marginalised in society. With its pan-India presence, Don Bosco continues to strive towards realising the Sustainable

Development Goals (SDGs), 'leaving no one behind'.

Bosconet mobilises resources for the Don Bosco network spread across 29 states, 11 regional development organisations and 354 NGOs.

## What Do We Do?

### Empowering the young at risk

Rescue and support of children at risk, education and care of marginalised children and youth to create new beginnings.

### Skilling for sustainable living

Enabling youth with technical and life skills for a brighter future.

### Empowering women and communities

Ensuring women in marginalised communities with literacy and skills for better financial stability and security.

### Caring for the Earth

Promoting active responsibility for our common home - the Earth, through nature friendly sustainable lifestyles.

# Don Bosco Development Network

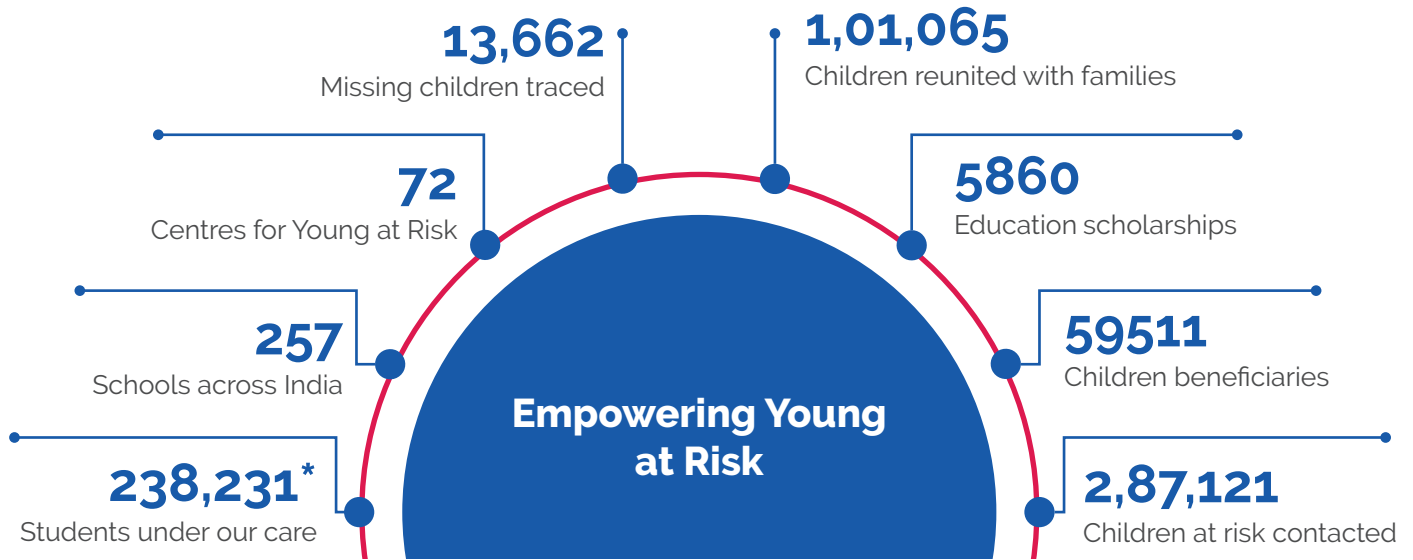

# Empowering the Young at Risk

Don Bosco Young at Risk (YAR) initiatives regularly rescue and support children who are at any kind of risk, especially those on the streets, and child labourers. These institutions open up new worlds for children like Sheila across India. Empowered through child rights clubs, children become active advocates of their own and other children's rights.

- Movement for Child Friendly Cities
- Migration to Integration: Help Desks for Migrant Youth in Cities
- Protection of the Girl Child: Prevention of child marriage and rescue from trafficking and abuse
- Promotion of Child Rights and Children's parliaments

*Sheila was born into a very poor family and was orphaned at an early age. Her entire life was spent on streets and railway stations, doing odd jobs as a child labourer in a silk processing factory. An unfortunate accident at the factory left her without two of her fingers.*

*Don Bosco found her when she was ten; a stable, caring environment and a good education transformed an aggressive Sheila into a content child. Today she pursues her ITI training from Don Bosco, Prakashapalya, where she is happy to learn and earn for herself.*

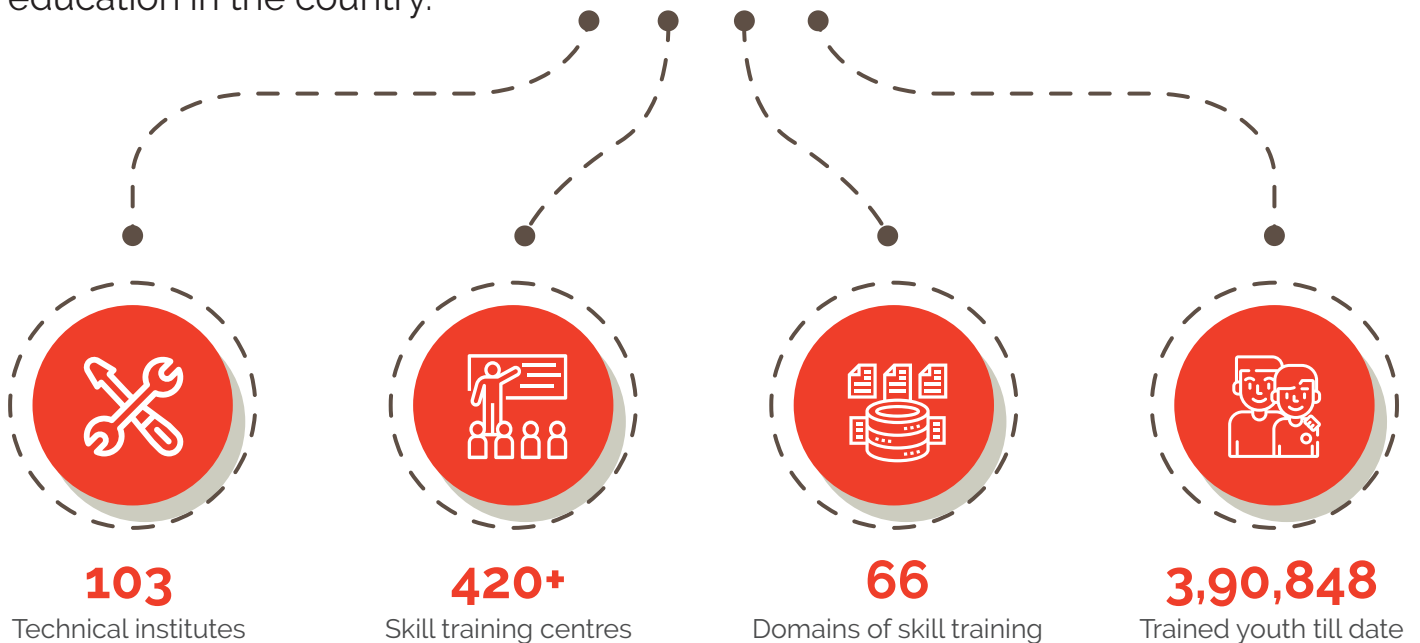

# Skilling for sustainable living

Don Bosco believes that when people learn skills, they not only earn their living, but also learn respect for themselves and others! The Government of India has recognised Don Bosco as the largest non-governmental provider of technical education in the country.

Agro-based skill training for youth

Training in promoting alternative sources of energy such as solar power

Prevention of urban migration of youth through promotion of entrepreneurship and employment in rural sectors

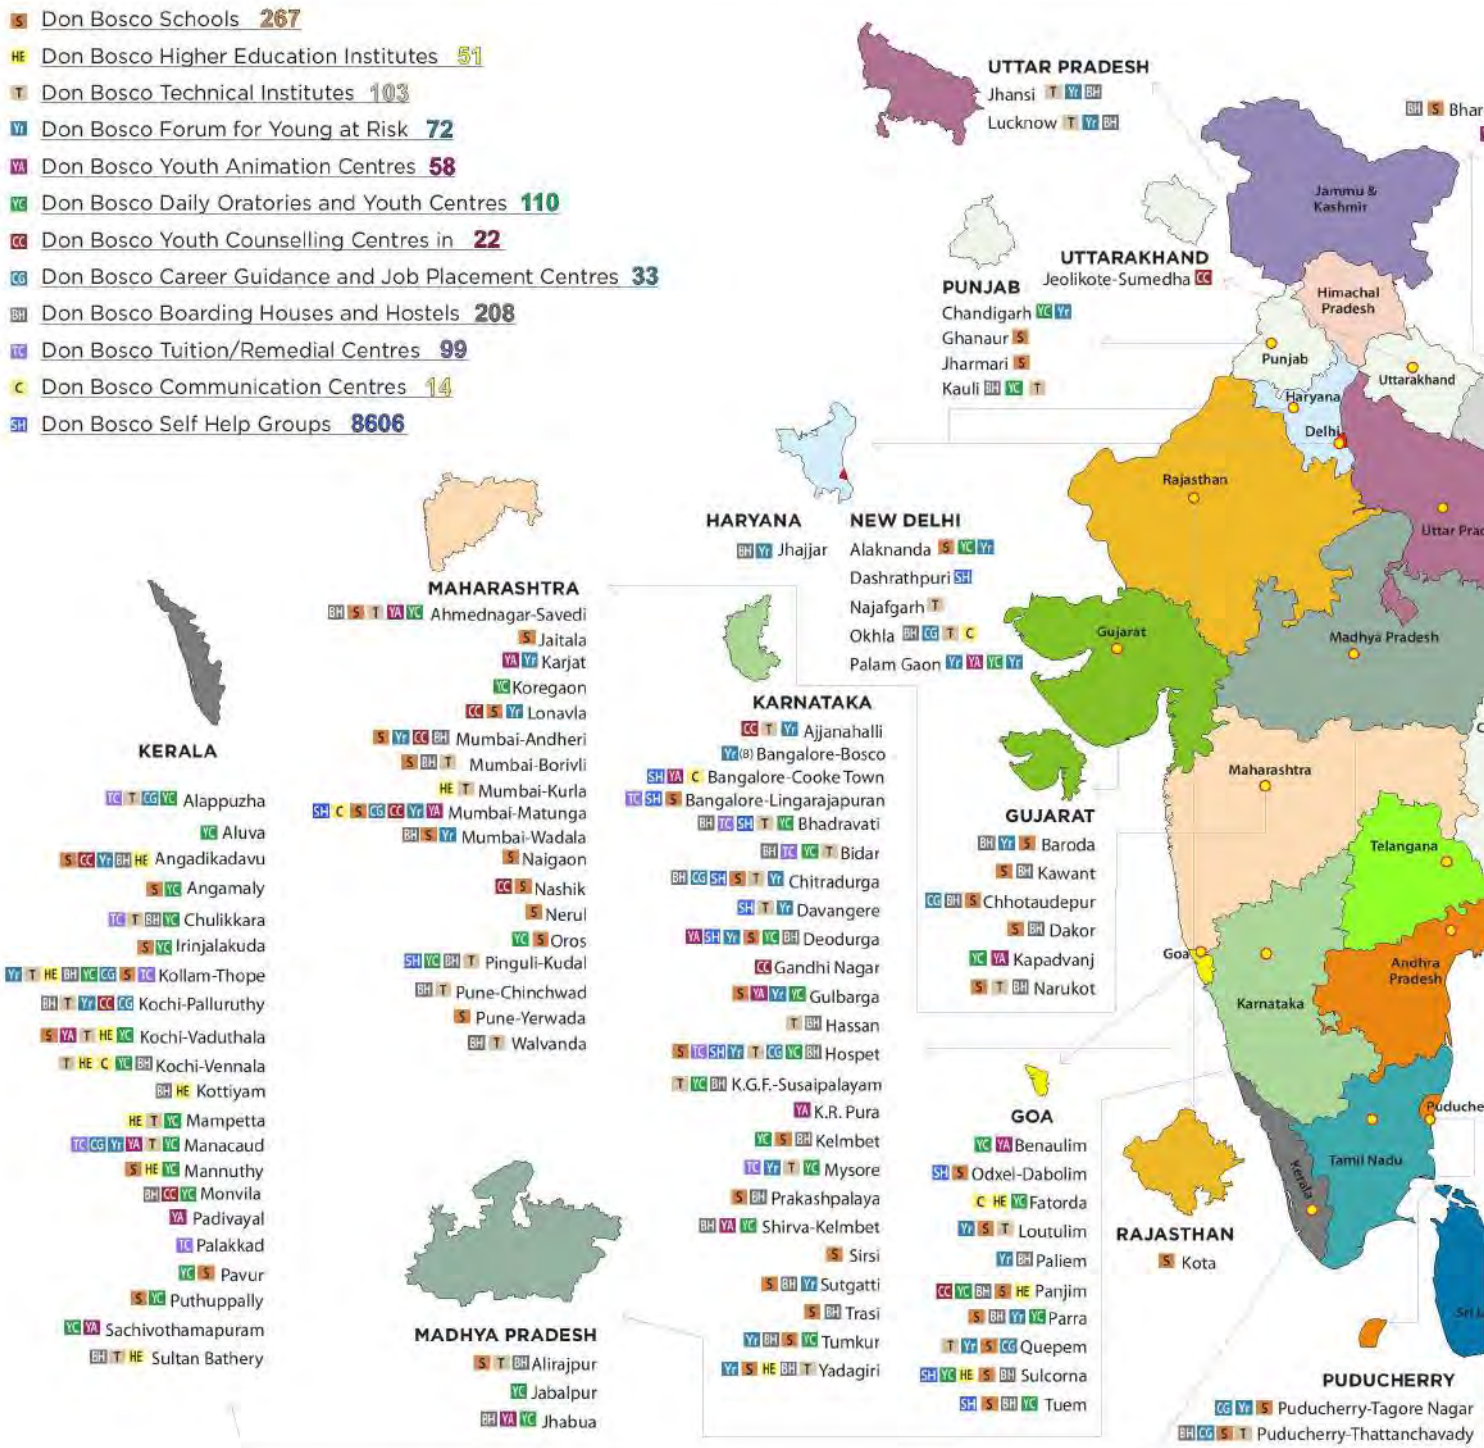

*Born into an economically backward family of 7, Abhijit could barely think of a bright future. After completing a 3- month training in hospitality at Don Bosco, Monsada, Abhijit faced his initial struggles to stay on the job that Don Bosco found him. However, he managed to stay on and thanks the disciplined way of life in Don Bosco for keeping him going, despite the mental battle to give up.*

# Empowering women and communities

Don Bosco reaches out to underprivileged women across India, working with them to ensure sustainable social and financial development. Through the social empowerment initiatives, many women like Unnati are empowered to become leaders and make their own choices.

Organic Kitchen Garden programme for rural women

Promoting functional literacy among illiterate rural women

Gender Equity Education programme

*In the year 2016, the Don Bosco IGP Project for rural women in Bicholim, opened a door not just for my empowerment, but also gave me an opportunity to become the voice of the women in Bicholim. I was previously engaged in a papad-making business, earning a profit of Rs. 2000 every month. The trainings imparted as part of this project, strengthened my income generation skills, and also taught that the real empowerment of women lies in being politically and socially active. Thus, began my political journey as a panchayat member, which has today culminated in my becoming the president of the Mahila Morcha Dal, Sanquilem constituency, North Goa.*

**-Unnati Ajith Sahasrabuddha (President -Mahila Morcha Dal, Bicholim, Goa)**

# Caring for the Earth

Don Bosco believes that environmentally sustainable living can be inculcated best within the children and the youth. In this context, the network of Eco Clubs and green movements encourage children to balance human needs with the care and protection of the environment, evaluate lifestyle choices and promote a green and clean world.

Water Conservation and Waste Management

Promotion of climate-smart agriculture and alternative sources of energy

Strategic Knowledge sharing on combatting climate change

*The Don Bosco Green Alliance is a worldwide initiative with three priorities- to combat pollution, reduce global warming and eliminate disposable plastic. For this, Don Bosco institutions have partnered in global campaigns with the United Nations. The Global Climate Action programme has taken shape starting with greening of campuses; maximising the use of renewable energy, eliminating food waste and the planting of a million trees in the next five years.*
